Spanish Beginner and Intermediate, Grades 2-5

Join us for Spanish after school! Children build Spanish language and early literacy skills in an informal, language immersion setting with interactive games, hands on activities, songs, and cultural notes. Communicate in Spanish and make discoveries! Winter Session classes have different topics and themes and this level is appropriate for both new and continuing students. For mixed level groups, instruction will be tailored with differentiated activities and workbooks are included.

This level is intended for children who are reading and writing in English.
